

THE BELLOWS

Hamilton Camera Club

04 September 2014

Presidents Letter

Hello members, since the first issue of the Bellows for the 2014-15 season I thought I would say a few words as your new President.

We have an exciting program starting in September with great speakers and workshops. Our executive is working on making beneficial changes to improve clinics & other things that need attention.

The first thing coming up in November is the "Bronze Box." Our friendly competition between the Don Mills Camera Club and us. We will need 20 projected images and 20 prints. Color and Monochrome so start thinking of making some great images over the summer so we can put them together and win the "Bronze Box" again this year. We are hosting this year. I will say more about it when we open and hopefully have new as well as old members that may not be familiar with this.

As well as the "Bronze Box" competition I will be asking for lots more images in the coming months. One is for the "Niagara Frontier Regional Camera Clubs." (NFRCC) and some new ones for "The Photographic Society Of America." (PSA)

I have taken on a new job with them as Canada Plains Membership Director covering all of Ontario and Manitoba. I will be bringing membership information in September and will ask for more images for some of their competitions.

Now you must think I want your whole library of images? That might be true but only your best ones, of course.

I hope you have had a great summer.

See you at the Open House. September 8th.

Leonie

Editor's Introduction

Welcome to this introduction the new season's Bellows.

This is the club's news letter and as such it will attempt to keep you up to date on events of concern regarding the club, and photography in general.

However most importantly it is the newsletter for the members of the HCC and as such needs your comments and articles if it is to be successful.

The comments and opinions that you wish to express may well be contentious that is to be expected, as long as they are also constructive that will be most fine.

Articles may range from travelogues and techniques to new developments in photography.

If you have photographic equipment that you wish to sell, or buy, there will be space for that too.

The point that I am trying to make is that I am merely the editor the content of The Bellows will be submissions from the membership and reports from members of the executive as appropriate. I am looking forward to hearing from you

Rob
